OBJECTIVE

To obtain a challenging position in a growth-oriented organization where I can apply my skills, expand my knowledge, and contribute to team success while continuously improving myself professionally. Eager to contribute to a forward-thinking organization by transforming data into actionable insights and scalable solutions. Motivated Data Science Engineer with a strong foundation in machine learning, Python programming and SQL.

EXPERIENCE

CODSOFT INTERNSHIP

1st Aug 2024 - 31st Aug 2024

Frontend Intern

- Collaborated on data analysis projects involving pre-processing, visualization, and model building using Python and key libraries like Pandas, NumPy, and Scikit-learn.
- Applied data science methodologies to real-world data sets, focusing on data pre-processing, exploratory data analysis (EDA), and statistical modeling.
- Developed and evaluated machine learning models to support data-driven decision-making.

SEO INTERNSHIP at TIMES TECH MEDIA

20th June 2023 - 20th July 2023

- Assisted in optimizing website content and meta tags to improve search engine rankings and online visibility.
- Conducted keyword research and competitive analysis to enhance SEO strategies.
- Gained hands-on experience in digital marketing, content strategy and SEO best practices.

EDUCATION

Noida Institute Of Engineering And Technology

Bachelor's in Computer Science Engineering (Data Science) | CGPA: 8.3

Greater Noida, Uttar Pradesh

Nov. 2022 – Present

Angels Public School

Senior Secondary (12th) | 81%

Vasundhara Enclave, New Delhi

2022

Angels Public School

Secondary (10th) | 80%

Vasundhara Enclave, New Delhi

2020

PROJECTS

Online Cab Booking System: May 2024

- Designed and developed an **Android-based cab booking app** using **Java**, **XML**, and **MySQL** for real-time interaction between customers and drivers.
- Implemented key features including:
 - User registration and secure login
 - Fare estimation and revenue reporting
 - Cab availability search and real-time booking.
- Created **user-friendly interfaces** for both passengers and drivers to enhance usability and user experience.
- Developed **location-based booking functionality** using GPS services for accurate pickup and drop-off.
- Focused on ensuring secure, scalable, and responsive mobile app performance.

GFG Hackfest Project:

Care360 Healthcare Website – September 2024

- Developed a full-featured healthcare website providing primary care, specialty services, lab testing, and emergency ambulance support.
- Designed and implemented a secure **Patient Portal**.
- Integrated **telehealth features**.
- Enabled **wearable device data syncing** to enhance remote health tracking and diagnostics.
- Focused on improving **patient accessibility**, **user experience**, and **data security** in digital healthcare delivery.

TECHNICAL SKILLS

- **Programming Languages:** Java, Python (Pandas, NumPy, Scikit-learn), JavaScript, HTML, CSS, SQL
- **Data Visualization:** Tableau, PowerBI
- **Database Management:** MySQL
- **Tools & Technologies:** Jupyter Notebook, Git
